CAPGEMINI PAPER ON 22ND SEPTEMBER AT LNCT,BHOPAL

Hi friend's this is sunil kraplani from L.N.C.T. BHOPAL.I got placed in capgemini a great software company on 22nd sep.2008.this was a close campus at L.N.C.T. Bhopal.

Selection Procedure consist of four rounds:

- 1.Online written test
- 2 GD
- 3.TECHNICAL INTERVIEW
- 4.HR INTERVIEW

there was about 250 students appear for campus.

Written-105 cleared

GD-35 cleared

TECH.-14 cleared

HR-13 finally selected

1.written test-this test is of two sections-

1.apitude(25 questions)-they are little bit tough. some question was from previous paper not more than 4 que. prepare by R.S. AGRAWAL.

2.analytical-this section was more tough. mainly concept of R.S. AGRAWAL level was high.

5-6 questions from relation.

5-6 questions from prediction.

8 questions from data sufficiency

2.GD-in gd there r 105 students. they divided 7 groups of 15 students each. my topic was“who is ultimate don abhitabh or shahrukh”

some other topic's was "mercy killing", "is china threat to India" they given us 1 minute each to speak then open a gd. Try to speak good in 1 minute then enter atleast 3 times in gd with confidence.

3. TECHNICAL INTERVIEW-in tech there are five panels who clears technical can go hr interviw.

Question ask to me was-mainly from .net like

1. what is radio button
2. drop down list
3. multiview
4. concept of oops
5. diff. bet. Array & link list.
6. about project and training.

4. HR-it was very easy que. are

1. tell me something about yourself.
2. 2 puzzles I solved both but I was confused in 1.
3. my hobbies
4. family background.

Hr interview was a formality the game was upto technical only. So be confident. this was my 15th company. but finally it was best of the 15 companies. Good luck. Package was 2.75lakh/anum.

For clearing the written exam you must do the previous year papers (R.S Agarwal) An employee has to allocate offices to 6 staff members. The offices are no. 1-6. the offices are arranged in a row and they are separated from each other by dividers>hence voices, sounds and cigarette smoke flow easily from one office to another Miss R needs to use the telephone quite often throughout the day. Mr. M and Mr. B need adjacent offices as they need to consult each other often while working. Miss H is a senior employee and his to be allotted the office no. 5, having the biggest window. Mr. D requires silence in office next to his. Mr. T, Mr. M and Mr. D are all smokers. Miss H finds tobacco smoke allergic and consecutively the offices next to hers are occupied by non-smokers. Unless specifically stated all the employees maintain an atmosphere of silence during office hrs.

The ideal candidate to occupy office farthest from Mr. B will be

i. Miss H ii. Mr. M iii. Mr. T iv. Mr. D

The three employees who are smokers should be seated in the offices

i. 1 2 4 ii. 2 3 6 iii. 1 2 3 iv. 1 2 3

The ideal office for Mr. M would be

i. 2 ii. 6 iii. 1 iv. 3

In the event of what occurrence within a period of one month since the assignment of the offices would a request for a change in office be put forth by one or more employees?

- i. Mr. D quitting smoking
- ii. Mr. T taking over duties formally taken care of by Miss R
- iii. The installation of a water cooler in Miss H's office

CAPGEMINI PAPER ON 4th SEPTEMBER AT MUMBAI

Hi friends

This is omkar from D.M.C.E ,airoli, navi Mumbai. Cap Gemini visited our college on 4th September 2008.well let me tell u about myself, before CAPGEMINI I cleared 5 aptitude test ,1 GD ,4 TR and 3 HR and then too I was not selected. So u can think me as an experience candidate for placement) but I think my destiny was in cap Gemini . the overall procedure for the placement was as follows:-

1) U r required to fill a admit card for the online aptitude test. The online aptitude test consist of 2 sections of 50 questions.

1) Quantitative (1 to 25)

2) Logical (26 to 50). Time limit:-60 min.

There was no negative marking. There was sectional cutoff.

Quantities section consist of following question

*) how many prime numbers r between 1 to 100? (ans :-25 (1 is not prime))

*)a problem on speed ,distance, time like superman flies at 25mph, spiderman flies at15mph and phantom take 2 hrs to fly from NY to DC. If speed of spiderman is twice that of phantom .and distance between NY to DC is same as distance between NY to Washington (I don't remember it well) there where couple of question like

*) what is the distance between NY and DC?

*) how long will superman take to travel from dc to Washington and back?

*) I donno remember the 3rd ?

)the largest no between $(7)-(2)$, $(3)+(4)$, $2(2)$, $6+(2)(X)$ =square root of X

*)Arrange some numbers in descending order?

I will tell u guys if u want to crack quantitative section u have to do following section well :-\

1-numbers (5 question)

2-average(2)

3-speed ,distance(5)

4-simple compound interest(2)

5-profit and loss(3)

6-progression (2)

Logical section consist of following question;-

*)a problem on if it rains on Wednesday it will rain on Friday and so on and 5 questions based on the data (the question on the data were scattered all around the paper i.e 1st question was no 26,2nd was no 30,3rd was 32,4th was 36,and 5th was 38) (easy)

*)a problem on playground i.e A,B,C,D want to play on ground P,Q,R,S.A plays on p and Q. B on Q & R. C on Q and S.5 question where asked on the data (easy)

*)a 5 question on relation i.e A is D mom. B is E mom. F is C son. B is G aunt(not sure).

And some more data was given Let me tell u friends the logical question was much easy than quantitative .so first attempt logical and then quantitative. don't go for solving all question of logical solve 15 questions of logical then go for quantitative since quantitative is difficult and there was sectional cut off. Keep last 5 minutes for guessing the answers of the remaining question.

In our college out of 80, 20 was selected for interview (since less student qualified, they cancelled the GD section and directly took the interview)

Well there were 2 interviews (TR and HR) My HR interview went like this

I –good evening sir.

Interviewer –good evening omkar .how was u r day?

I – fine sir ?

Interviewer:-well omkar tell me about you.

I – (this is the main part. mention u r name ,birth date , birth place, academic's 10th ,12th B.E ,the order of mentioning should be ascending, don't directly start from u r B.E ,also mention u r hobbies, which u pursued in 10 ,12 and B.E ,also mention achievement if any)

Interviewer-well does u have any idea about DBMS (if u r comp or IT u should know what it is?)

I – yes.

Interviewer – can u develop database relation schema for a movie theatre (since I mention my hobby as WATCHING MOVIES)

I – I did as he told; he in fact helped me to develop the database.

Interviewer – what do u mean by normalization?

I – explained with an example and also told about 1NF, 2NF, 3NF etc

Interviewer - any liking for programming languages?

I – 'C' programming language.

Interviewer – he asked me to write a program (only logic, no emphasis on syntax) for Fibonacci series (really a piece of cake)

Interviewer – asked me about my project work for current year?

I – explained about my project in detailed (he was really impressed by my presentation of project).

Interviewer – asked question about my project?

Interviewer – do u have any question?

I – sir, can u give me details of the bond we have to sign while joining?

Interviewer – explained?

Interviewer – well omkar thank u?

(he got up for shaking hand, tat's a sign u r on right track, I left the room and after some time I got call for HR interview .the trick for clearing TR is be honest for most times, if u donno know some answer, tell him frankly tat "u can't recollect it", if u have some knowledge tell him what u know about it and last add"tats all I can remember ,sir ")

My HR went like this:-

Interviewer:-u may sit omkar.

I – thank u sir.

Interviewer – tell me about u r self?

I – same as above

Interviewer – what about u r family background?

I – told him.

Interviewer- which technology r u aiming for career and why?

I – sir, JAVA becoz it's an ever expanding, branching language, like JSP, JAVA net beans, JAKARTA STRUTS etc (added something about the features about JAVA)

Interviewer – where do u see u r self 5 years from now?

I – leading a group of 5-10 people in an I.T firm probably a project leader.

Interviewer - do u know any recent news about the booming IT sector? (since I mentioned my hobby as newspaper reading)

I – no sir my special liking is for world politics, and technology. sir not really interested in business .

Interviewer- ok . any problem shifting to other locations?

I – no.

Interviewer – well thank u omkar ?

I – thank u sir.

I waited for 2 hours outside and finally 7 people went for HR interview (I was one of them) out of 20 selected they told me that results of those who gave HR will be

CAPGEMINI PAPER ON 28th AUGUST AT HYDERABD 2008

Hi friends... this is somewhat related to the candidates who need guidance on MAINFRAMES. mainframes paper is different from others... Actually there will be three rounds for you

1) WRITTEN TEST

a) Technical

b) Logical reasoning

In technical again there will be 5 sections on jcl,cobol,cics,db2,vsam. Each section carries 15 marks and you have to get atleast 9 marks in each section and there is a negative marking of 0.25 for each wrong answer.

In logical reasoning there will be 50 questions.I dont know whether these section carries negative marking or not!!!

2)GROUP DISCUSSION

In GD they give quite general topics like "WHY INDIA IS LAGGING IN OLYMPICS", "IS IT NECCESARY TO GO TO FOREIGN FOR EDUCATION".

3)INTERVIEW

In interview they covered almost all topics. For me they asked so many questions on DB2SQL and about my project. Some questions on physics also.

Concentrate more on COBOL. why bcoz in our paper cobol is some what tougher

when compared to others. Go through the project before going to interview and also prepare your own feedback questions. The questions that you ask them will also give some impression. I asked these questions,

- (i) what about the training for the selected candidates?
- (ii) How this company will help the employees to improve their technical stuff?
- (iii) In which areas I have to improve yet?

that's it....

Results were announced, the next day. I am very happy to say that I got placed in CAPGEMINI.

ALL THE BEST

CAPGEMINI PAPER ON 5th AUGUST AT RAIPUR 2008

Hello all job aspirants, i am charchika shukla, student of NIT Raipur.I got placed in "CAPGEMINI" on 5th August 2008.It was a wonderful experience. you will get to know abt the pattern n procedure from other papers on this wonderful site we all know as "FRESHERSWORLD.COM" but what i will tell u is my experience -

that day first of all the company's representatives gave a Powerpoint Presentation of their company , as it was the first software company to visit our

college all of us were very excited , i and some of my frnz had come with an attitude that just lets see what happens,we were not very sure, so it was like a rehearsal for us. the presentation was good,they told us abt their cmpny n all.You must check out a few details like CEO,locations,origin etc. about the cmpny,it helps.

after ppt we were to sit for the written test.it was easy , there were 2 sections - apti n LR. there were 3 different sets of the paper.questions wre of the type specified in many of the papers on this site.50 qs n 1 hr time.they had told us a cutt off of 10 qs in each section.i had solved 12-13 qs of apti and around 18-20 qs of LR. i had given the test with " lets see what happens" hope., after about 1 n a hlf hr results were declard n to my surprise my name was there!! total 120 students were selectd .i thought " oh my god !i will have to prepare for next round GD" as i had not prpd for it at all.so with my frnz help i prepared some current topics like "Nuclear deal" , "terrorism" n a few abstract topics like "black" etc. they had divided 120 ppl in 10 grps each of 12 members.

then came my turn- n luckily i got the topic Nuclear deal.my panel gave us 2 min. to think abt the topic.as i had prpd it ,so i decided anyhow i have to "initiate" the topic, as it yields most points and was just looking at them for start signal n as soon as i got it i just grabbed the opportunity n successfully initiated the topic - "gudafternoon all of u,i m so n so n our topic of discussion is" . one important thing that i learnt was - a persn must be confident while speaking, must raise the volume if he/she is not getting the chance to speak, becoz nobody is going to give u chance to speak , n at the same must listen to others attentively, make eye contact wid ur grp members it shows ur confidence n projects u as a facilitator who helps others to speak. i did all this. n also , if possible try to make urself comfortable with ur grp members if u know their names, before the discussion as it helps u to win frnz n hence good n familiar grp members to discuss with.

neways, results were out n as i thought - i had a chance, i was one of the 3 students selectd from our grp of 12 students.total 74 students.

so , i was in for the final round - the tech+ hr interview. it was really a mix of feelings- i was excited at the same tme a bit nervous abt the interview as i had not prpd well my technical subjects like Operating System, N/wking etc. n rest of the subjects like DS,C,C++ i had not touched them for the last week , but ya , i was done with my project works which i had done genuinely. so before goin to interview i had some 2 hrs , so i just brushed up some of the basic concepts n all

i was abt to be called on 27 th no. but to my surprise, my name was called around 7:15 pm nearly 1/2 an hr earlier.i was not at all prepared , i just picked up my file from smwhere n a pen, lended by my frnd n rushed in.

there were 4 panels . I was sent to a single person panel.His name was Mr. Shabreesh Menon.

so i jst entered n wished him gudevning sir.he too wished me n askd me to sit.n he askd me the meaning of my name. i told.he then asked me to give me a brief intro of myself.i did. then he askd me abt my projects.i told. then askd me abt my fav subject.i told. nxt q was why did i chose to pursue MCA.i told. then he gave me a really easy puzzle.i answrd.he then askd why shall they choose me over others.i told hard work,sincere with an eg to support.then he finally askd me if i had any constraints regarding the place if i get placed.i said no.

he then said ok,it was nice meeting u and did a handshake.i said - "same here sir"with a smile. and i left.

i thought i had a chance,for the first time in the whole day it came to my mind- i dnt want to go home empty handed now. as i was the first one t be called of our

CAPGEMINI PAPER ON 19th JULY 2007 AT MUMBAI

hi freinds . my name is keyur . i recently appeared for capgemini, it is a very good company . they are giving a package of 2.73lac. on 19th we had the aptitude test . then on 20th we had a GD round. after that there technical cum HR round.

aptitude test was of 1hr online test and it consists of 25 questions in analytical section and 25 questions in logical section. analytical section was tough and is very time consuming. u can refer R.S.Agrawal quantitative for this section. do that book very seriously try to give more stress on

speed,distance,time,ages,simplification,permutation and combination chapters.

but note that u dont waste much time in this section dont give more then 35 min to this section.

next section was logical.it also had 25 questions. this section is quite easy and u can score good points in this section. u can refer(R.S.Agrawal logical reasoning) for this section. do the puzzel test and data sufficiency chapters very perfectly bcoz most of the questions were from this 2 chapters. i think doing only this 2 chapters is enough.

i was not able to clear the apti and the cut off was not disclosed .may be it was around 30 right questions.

next round was GD round many of my friends cleared it and went for tech cum HR round.

hope so this information will help u all.

CAPGEMINI PAPER ON 11th JULY 2007 AT MUMBAI

Written Test, There were 4 sections :-

- (1) Quantitative 25 questions.
- (2) Analytical 30 questions
- (3) Verbal 25 questions.
- (4) Technical Aptitude .Net / Java as per your choice

There were 2 set of test paper. I got II set.

All the section are very easy if you have prepared well

Prepare english and analytical , logical sections well that will take more time to solve

then after that Technical and HR rounds,

In technical they had given me one case study to solve in which they are wanted to know how many objects and there relationship each other

After that some question on oops like proprties of opps simple questions, and php coz i hace php exp and also simple questions on database like primary key, foriegn key and normalization etc

After that one HR round as usual all companies are taking that abt ur self

hobbies , what do you know abt company (capgemini just go through the website),and many more

One more Main thing is that THEY WANT PEOPLE HOW HAS FIRST CLASS EVEN IF YOU CLEAR ALL ROUNDS THEN ALSO THEY WILL NOT SELECT EVEN IF YOU ARE TOO GOOD IN TECHICAL OR WHATEVER.

I think this will help you and wish you all the best.

CAPGEMINI PAPER ON 4th JUNE AT BHUBANESWAR 2007

Hie Friends,this is Samrat here..I am sharing my experiences abt the CAPGEMINI recruitment held at KIIT,Bhubaneswar on 4th.....

As u guys would b knowing this is year the test pattern of CAPGEMINI is Aptitude(25) and Reasoning(25)..Then followed by GD, Technical (mainly HR based and puzzles) and HR..

The apti part was very easy. actually questions are being repeated. The same question that came in BIT ,Kolkata came here ..So I would suggest all the aspirants to solve the papers given in freshersworld properly....In our college 300

students sat for the paper.Out of it 120 cleared written. Then came the GD part..

Topics like -East or West which is the land of opportunities and Gandhigiri or Dadagiri were given.In our college we had 50 B.Tech and 70 MCA 's quaified for written...There were 5 B.Tech GD group and 7 MCA groups each consisting of 10 .So out of it 51 cleared GD..My topic was Lagey Raho Munnabhai and its impact in modern days..I cleared GD..

Then came the Technical or Management round..In this round either you would be asked some HR queestions like Tell Me about Yourself or some cases would be given to you and you have to get the best possible answers..They gave me a puzzle from Shakuntala Devi and told me to complete it in 30 secs.I confidently did it in 20 secs.And they would also be askin you abt ur Hobbies and details on them..Then I was told to wait outside for HR round..

Friends remember in Capgemini every person has to undergo thru TECH and HR..They evaluate you on your total performance starting from written marks,GD,Tech qualities and HR... Then in my HR round i had to face the HR Head of Kolkata--VANDANA mam.She asked me on why I joined Capgemini inspite of there being so many big companies like TCS,CTS,etc.

Then asked abt my projects in details..Then asked me on my hobbies,Extracurricular activities..A situation was given to me how I should overcome it with the best possible outcomes. like that..and then asked questions like Why i joined KIIT,Bbsr apart from having joined in an Engineering college in Kolkata(I am from KOL so shes asked this)..Like this..i was so confident withe the answers that my HR was pleased..It was a 20 mins Interview..Then she finally asked me if I have any questions for her.I asked her soe like what a company expects from the freshers and wat subject a fresher should be acquainted with properly b4 joining a company and like dat..Then she told me it was over and I had to wait outside for results. Finally when results came out at 12 am ..i was lucky to find my name in the 5th call...What they said was they

marked a person totally starting from Written GD, Tech ,HR..mine was the 5th
rank out of the 300 ..Hey guys I was so lucky..After having failed to even clear
the written in WIPRO,MINDTREE,L&T INFOTECH I was really very depressed
and now i ve cleared CAPGEMINI --a MNC wow!!

Guys i really bleive to get recruited u really need 70 percent luck....Anyways I
hope my suggestion would help all the aspirants....They offered package of 2.75
but it woudl be revised to 3.3 lacs/annum...
Best of luck to all the aspirants!!! And see u guys in CAPGEMINI!!!!

CAPGEMINI PAPER ON 24th 2007 APRIL AT KOLKATA

Hi friends!!!!

I'm Aniruddha Ghosh,a 3rd year engineering student of Bengal Institute of
Technology,Kolkata. I'm here to share my xperience of the capussing procedure
conducted by CAPGEMINI on 24th April,2007.

We had to face 4 rounds-

- a) Aptitude Test
- b) Group Discussion

- c) Technical Interview
- d) HR interview

There was 50 questions in the aptitude test, 25 questions on quantitative & other 25 questions were logical analysis. There was no such questions either on verbal or technical ability. The questions were standard, not very easy, but not at all tough, a little bit time-taking.

Mainly the quanti questions were on basic--profit & loss, interest, fractions, speed...etc. The logical questions were on common sense, very ordinary logical questions followed by any book like R.S. Agarwal.

The time management is the main key to solve the paper as per my point of view.

Total 116 candidates appeared for aptitude test, only 45 cleared the aptitude test including me.

The next round was GD. It was a wonderful experience to all of us. We have given "Lage raho Munnabhai---what's the social impact of that well admired movie". It was a very good topic to discuss, nearly all of us contribute more or less as their level best. I initiated the GD, & my friends also spoke well. 9 people out of 11, were selected from our group.

In total they selected 36 candidates for technical interview. The moderator of our group was very friendly & he gave us enough time to discuss. Before starting the GD he said that--"nothing to worry about, it's just a formal discussion", which was a big relief to all of us.

In technical Interview they asked very basic questions from our semester subjects. Specially C, DS, DBMS, Networking, OS, OOP & Microprocessor. CS & IT people please make urself comfortable with your departmental subjects, if possible Please go through Microprocessor also. They ask from here also. As I'm a student of IT department, I'm giving u the brief of my interview, but I've heard

from my friends of ECE department, they were asked from their departmental subjects also.

I was asked to tell the respected interviewer the names of my past 2 semester's subjects. He listened those carefully, & asked questions from those subjects, I've mentioned earlier. Some questions was like---basic features of OOP-discuss, normalization, OS handling, basic questions on OS, OSI layer-little discussion, link lists, sorting, & last but not the least I was asked to write the algo of Quicksort, & some other questions also their, that I can't remember now. But over all there was no such contradictory questions, they never counter with your answer.

There were only 18 candidates including me cleared the technical round.

After some time I was called for HR interview. It was nice to giving an interview in a friendly atmosphere they created. I was asked to tell about myself, the respected madam who was taking my interview asked me from the points I mentioned to tell about myself. She asked me ---"what do u mean by optimism?", "how can you prove that you are optimistic?", "what do u know about software industry?", strengths, weaknesses. Finally asked me to question her about my confusions if any.

I want to share something with you, it was the 6th interview, I was appeared for. Previously I've rejected 5 times, but still I didn't give up. I want to say you people must have confidence upon yourself, that's the thing with which you can win, never become hopeless.

I know what's the amount of pressure a candidate have on him, whenever he appears for an interview, & how was the feelings of being rejected one after another times.

So please try to be confident, always try to answer promptly, don't go for any

false representation, as it reflects on your expression,& have faith on yourself---
that's the key to crack.

Don't get me wrong, you may have feel that I'm giving too many advises that are useless, but I'm telling you, whatever I've said here, all are my own experiences. I personally believe that "failure is the pillar of success",& YES, I'VE PROVED IT BY MYSELF, I'VE CRACKED CAPGEMINI,the renowned IT company in the industry.

The final result listed only 9 candidates who are finally selected,& I feel very proud to be 1 of those 9.

Nothing to say more, BEST OF LUCK--to all of u. & VERY SORRY, if I made someone feel "boring", "time waste", "useless speech"....etc

If possible please forgive me. I'll be obliged enough if my experience would help someone to get a job.

Wishing you all

Aniruddha

CAPGEMINI PAPER ON 3rd JUNE AT BHUBANESWAR 2007

hi buddies...well we had capgemini as ON Campus at our college.it was scheduled to start by 2:30 but took some more time to start off. The basic thing was that it was an ONLINE TEST. The same day CapGemini had been to CVRCE where they had written test in the form of pen and paper. Well we were given a regn. no and that regn no was our id and password to login. they had a fake test for 5 min to make the students acquainted with their question pattern. after that the test began. Believe me friends maximum of the questions were repeated frm the last questions papers which are quoted on this web site.not even a single data had changed. maximum of the questions were from the previous papers. Aptitude part was easy and RS Aggrawal is more than sufficient. reasoning part demanded the maximum time and one should be tricky in attending those coz this part asks for most of the time. total were 50 questions which were to be attended in 60 min. Time counter was running on computer, so a single more second could not be availed. as soon as 1 hour will be reached then immediately the page will be refreshed and the current profile will be logged out. So please be time efficient.

nice time and all the very best to all of u

Capgemini Sample Paper

- 1.) Quantitative 25 ques
- 2.) Analytical 30 ques
- 3.) Verbal ques 25 ques

The most easy section is the verbal section.Just prepare Barrons well .One or the other unsolved test papers of Barron's are replicated as it is in the papers...dat means antonyms,synonyms,sentence correction ..fill in d blanks words like gaffe,contentious,altrustic,belligerent....

Quanta is so so ..i mean 60 % is easy n rest is a bit tough...go thru the geometric theorms,formulas,quadriatic n linera section well.

Analytical is the ,most tricker one..it's very tempting bcoz 1 paragraph may fetch u 4 correct answers...puzzles..all puzzles like 1 speaks frnc,b speaks chinesse n eng..c speaks french and ... so arrange them in a comfortable position so dat they can converse wit each other...other quest's like a heavier then b m heavier then i and j , k lighter then d who is d heaviest ?? n so on.....

15 quest's are easy but very very time consuming and rest question sal though seem to be east bt try avoiding to attempt all questions coz that will eat up all ur time unless ur are very very very gud at analytical.....

Total quest 80

Total time 90 min's

NO UPPER CUT OF

they say that there is no sectional cut off but still they have minimum 5 5 8 questions..

Questioned asked were simple

Like : introduce yourself dat it is not given in ur resume,

Which all campus did u seated for etc...

These were very easy

I couldn't seated for CTS bcoz of my present backlogs

In tcs : out in tech interview

Accenture: again couldn't seated

I was frustrated

But finally I got a chance to seat in capgemini and luckily I was one of the 13 selected candidate.

Capgemini Placement Paper

Location : NIT, Raipur

The selection procedure was as follows:

1. Aptitude test (Mathematics and Logical Reasoning only)
2. Group Discussion
3. Personal Interview

Total number of candidates appeared - Around 250

Cleared Aptitude - 113

Cleared GD - 72

Selected - 62

A Pre-Placement talk was held before the selection procedure started.

Aptitude Test - There were 25 questions from both sections. 1 marks for each correct answer, -0.25 for each wrong answer.

Cut off - 10 marks in each section. No upper cut off.

50 % of the questions were from previous papers. Some of the questions I remember which are not there in previous papers are :

1. A garrison had provision for a certain number of days. After 10 days, $\frac{1}{5}$ of the men desert and it is found that the provisions will now last just as long as before. How long was that?
