ABOUT TRANING CENTRE
Global-MTS (Multi-Tech-solution)

➢ Software Technological Group Ltd. Established in 2005

➢ Leading software & networking education company.

➢ CCNA,CCNP are courses are available.

➢ Global player in I.T. industry.

➢ Quality education about emerging technologies.

➢ Provides training modules to freshers.

➢ Conducts corporate training for esteemed organizations.

SYSTEM'S INFORMATION

In the directory and file information In the Directory has many types of the files and each file has many lines,words & characters .

This software provide you many Facilities for the each file or group of the files.

.NET FRAMEWORK

.NET Framework

Web Services | Web Forms | Windows Forms

Data and XML classes
(ADO.NET, SQL, XSLT, XPath, XML, etc.)

Framework Base Classes
(IO, string, net, security, threading, text, reflection, collections, etc.)

Common Language Runtime
(debug, exception, type checking, JIT compilers)

Windows Platform

The Virtual Executionngine(VEE)
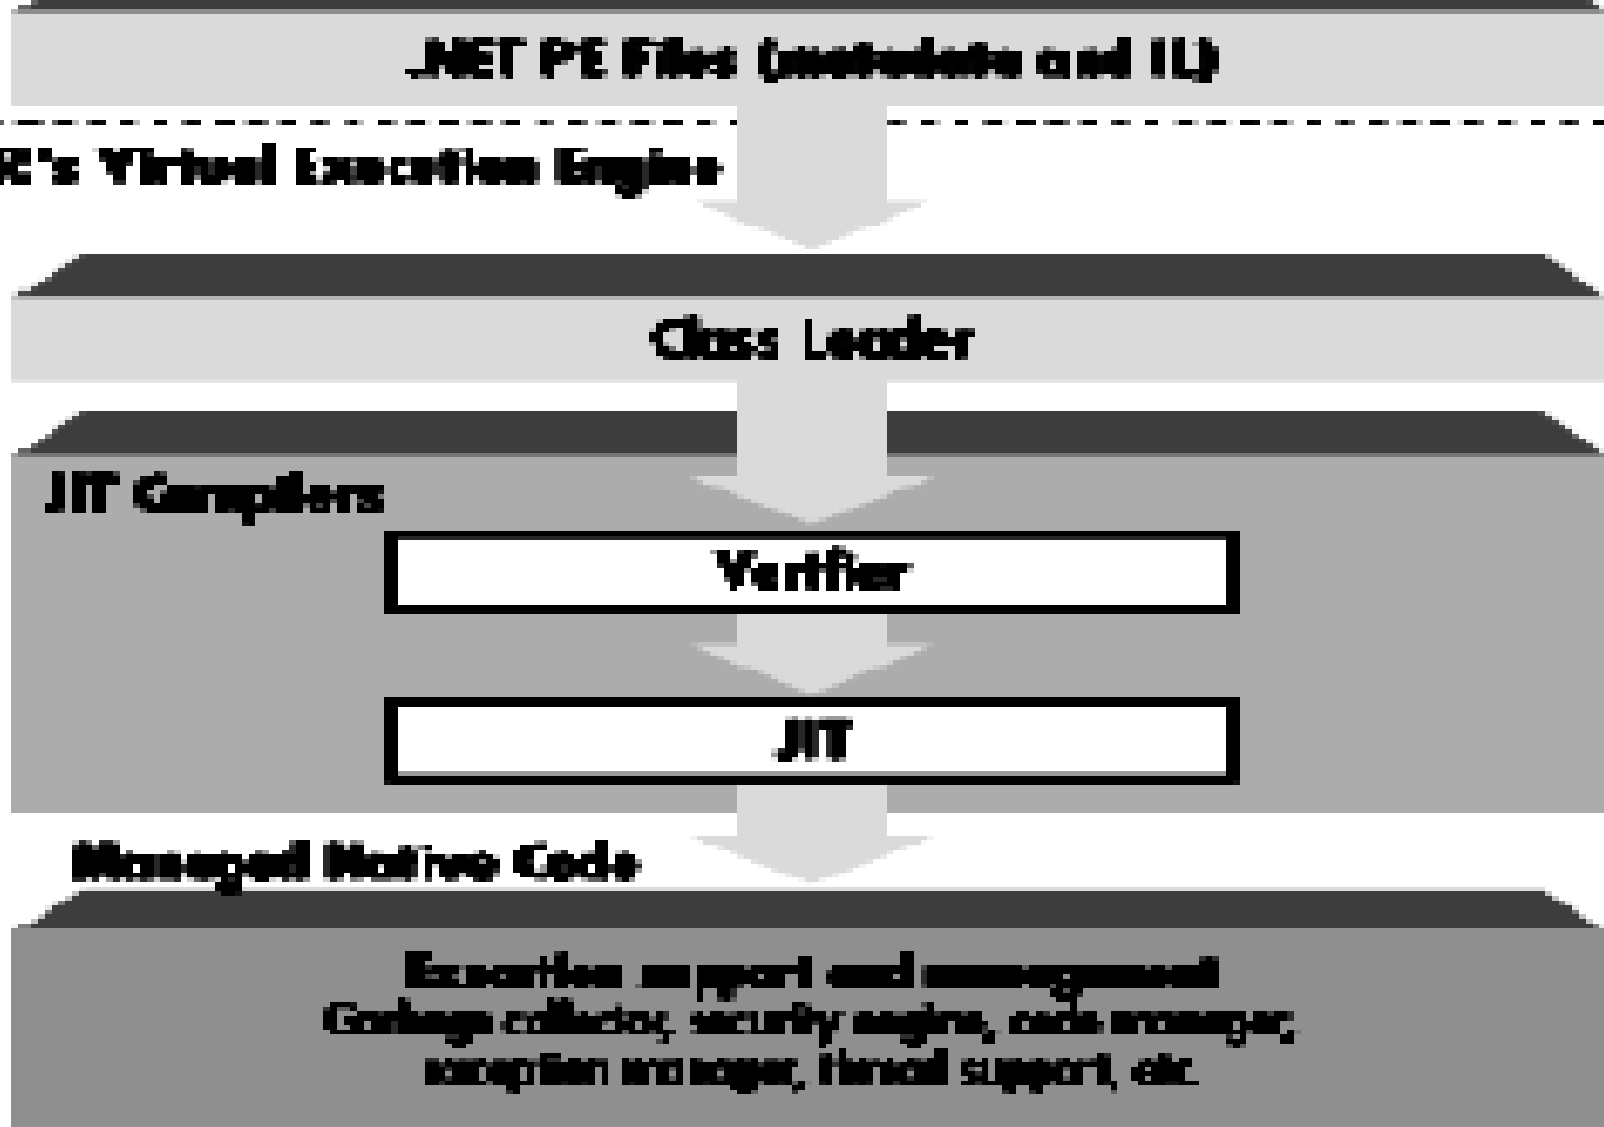

GENERAL INFORMATION

In the system information we have many Features for each file this s/w provides you as :--

- File name
- Size of file
- Type of file
- Date of modified
- Total no. of chars
- Total no. of words
- Total no. of lines
- Total information

BACK

ABOUT THE PROJECT

Problem Definition :-

Develop a software which is capable of on any file selection or directory selection Can abig broblem is create as :$\rightarrow$ no of .doc files/.txt/wpd/pdf files can't easily count. And similarly is not possible to count total no of words /characters and lines count .it is very time consuming process.   So it is very useful for all type of industry But   HOW let   see$\rightarrow$….

GOALS TO BE ACHIEVED

- Easily find file extention

- D.O.M

- Total characters

- Total words

- Total lines

- Size of file

SOFTWARE DEVELOPMENT LIFE CYCLE

Software was developed using life cycle which consists of following stages :-

➢Problem Identification
➢Requirement Analysis
➢Designing
➢Coding
➢Testing

BACK

REQUIREMENTS

➢ .NET FRAMEWORK

➢ 35-45 days for project completion

➢ 4 skilled person

➢ Windows2000/XP/PROFETIONAL

SKILLS REQUIRED

➢ One project leader

➢ One interface designer

➢ One debugger

➢ One for algowriter

BACK

LIMITATIONS

✓ This s/w is platform dependant.

✓ HTML file not support the this s/w.

✓ Excel-sheet not supported.

✓ Registered files don't deal with this software.

✓ On taking information of .DOC FILE ,All file open one by one in read only mode.

ENHANCEMENTS

✓ Easily to find out all files locations.

✓ Easily can find the file extention.

✓ Can find the size of the file.

✓ Easily can find D.O.M.

✓ it gives you whole information on one end screen like :- word count ,char count,lines count.

THANK

YOU.....
